Reminder about Muni Bonds

Speculation exists about increasing defaults and downgrades for municipal (muni) bonds. In general, we don't believe investment-grade quality bonds will experience this. Municipalities at the greatest risk continue to be those that are below investment-grade or borderline investment-grade quality. We believe the best approach is to own quality bonds, diversify and keep a long-term perspective. For more details, talk to your financial advisor and read our related report at www.edwardjones.com/muni.

We hope this overview of your relationship with Edward Jones provides useful information as you consider your financial decisions. Information reported from this point forward is specific to your individual investment and/or retirement account(s).

Please refer to the important information and disclosures on the last page of this package.

Estimated Yield

The Estimated Yield (EY) in the preceding sections(s) compares the anticipated earnings on your investments in the coming year to the current price of the investments. It is based on past interest and dividend payments made by the securities held in your account. Changes in the price of a security over time or in the amount of the investment held in your account will cause the EY to vary. The EY is only an estimate and cannot be guaranteed by Edward Jones or the issuers of the securities. Your actual yield may be higher or lower than the estimated amounts. Estimates for any securities that have a return of principal or capital gain may be overstated. Income cannot be estimated for any securities that do not have an annual payment amount or frequency available at this time.
