The amount you may be eligible to borrow may differ from your approved credit. Borrowing against securities has its risks and is not appropriate for everyone. If the value of your collateral declines, you may be required to deposit cash or additional securities, or the securities in your account may be sold to meet the margin call. The Foundation of a Successful Retirement

Whether you are already retired or still thinking about it, have you done everything you can to ensure you are well-prepared for that unique time of your life? If you're unsure, your Edward Jones financial advisor can help.

At Edward Jones, we believe a solid retirement plan is based on three major components:

1. Planning for the expected. This process begins with you. What is your vision of retirement? Do you see yourself remaining close to home, traveling, starting a new hobby or maybe even working part time? Based on that vision - whether you're already there or still working to get there - we can help you identify projected expenses and available resources. Using this information, you and your Edward Jones financial advisor can calculate an appropriate withdrawal rate and determine if your spending strategy is realistic. If not, you can pinpoint what trade-offs can be made to enable you to live the retirement you've envisioned.

2. Preparing for the unexpected. You and your financial advisor can examine and determine how to prepare for such retirement risks as inflation, market fluctuations, health care and living longer than you expected. This may include insuring against these risks or incorporating them into your investment strategy. For example, if short-term market declines make you uncomfortable, you may want to consider investments to better provide for your current income needs and, thereby, reduce the impact of short-term market swings on your income.

3. Positioning your portfolio for both. You and your Edward Jones financial advisor can discuss how transitioning from saving to spending in retirement affects your portfolio and examine the investment strategies you can implement to maintain the ideal balance between providing the necessary income for today with the growth needed for tomorrow.

Once you have developed a solid retirement strategy, you've taken a crucial step toward your retirement. But the process doesn't end there. Things change, even in retirement, so it's important to periodically review your portfolio and your investment strategy, especially after a major market move or a life-changing event. By doing so, you and your financial advisor can determine if you are still on track and, if not, make the necessary adjustments.

Call your financial advisor today for an appointment. He or she would be happy to meet with you to help you develop and maintain a strategy that will help fulfill your retirement expectations.
