High oil prices always get headlines.

Investors may worry that high oil prices could derail the strengthening economy. However, we believe the economy is strong enough to absorb higher oil prices. With no further production disruption, oil prices wouldn't likely rise much more and could reverse quickly. In that case, any impact should be small, not severe, so investors shouldn't overreact. While headlines from the Middle East represent a risk, a well-diversified portfolio is designed to navigate risky waters and help you toward your long-term financial goals.
