Put the Power of Dividends to Work for You

Do you own dividend-paying stocks? If not, you may be missing an opportunity to reinvest money into your portfolio. Although past performance doesn't guarantee future results, historically speaking, dividend-paying stocks have provided a better return over time than non-dividend-paying stocks, meaning they can help you keep pace with your long-term goals. Contact your financial advisor for details. Dividends may be increased, decreased or eliminated without notice.

Preparing for the Unexpected

No one can predict the future, but Edward Jones can help you prepare for it by addressing the key risks that can potentially derail your long-term financial strategy.

Providing for Your Family's Future

Providing for your family's future should include developing a proactive strategy to help ensure they have the necessary financial resources should something happen to you. Life and disability insurance can help address these risks by providing protection for what's too expensive to replace on your own.

Protecting What You've Worked For

As you approach retirement, your focus may begin to shift to protecting the financial security you've created for yourself and your family. You've worked hard to be able to live the life you want in retirement, whether that includes volunteering, spending time with family or working at something you enjoy. Living longer than you expect, an extended illness or an unexpected personal liability are risks that can seriously strain your financial resources and affect your ability to live comfortably in retirement.

It's important to create and stick to a sustainable withdrawal rate strategy. In addition, annuities with lifetime income benefits, long-term care insurance and umbrella liability insurance may help protect you against the risk of an unexpected illness or personal liability.

Passing On Your Legacy

Even if you've taken steps to ensure your assets will transfer to your family, a charity or an organization according to your wishes, the unexpected -- such as changes in wealth, tax laws and regulations, and even a birth or death in your family -- can impact those plans.

Your financial advisor can work with your CPA and attorney to build a strategy that will help ensure your assets are distributed according to your wishes. Once it's in place, it's vital to regularly review that strategy.

Your Edward Jones financial advisor can meet with you to discuss your financial goals and then determine what additional actions may be needed to provide, protect and pass on your financial legacy.
