* Your approved credit is not a commitment to loan funds. It is based on the value of your investment account which could change daily. The amount you may be eligible to borrow may differ from your approved credit. Borrowing against securities has its risks and is not appropriate for everyone. If the value of your collateral declines, you may be required to deposit cash or additional securities, or the securities in your account may be sold to meet the margin call. The interest rate will vary depending on the amount you borrowed and will begin to accrue from the date of the loan and be charged to the account. A minimum account value is required if you have loan features on your account. Call your financial advisor today.

High oil prices are getting headlines.

Investors may worry that high oil prices could derail the strengthening economy. However, we believe the economy is strong enough to absorb higher oil prices. Any impact should be small, not severe, so investors shouldn't overreact. While headlines from the Middle East represent a risk, a well-diversified portfolio is designed to navigate risky waters and help you work toward your long-term financial goals. Contact your financial advisor for suggestions on how to best position your portfolio.

Don't take a vacation from investing.

For many of us, summertime means vacation time, and while it's great to get away and relax for a while, the same can't be said of investing. It's important to stick to your long-term investment strategy regardless of short-term events. History has shown that time in the market is more important than timing the market. Some Certainty in Today's Uncertain Market

The market's recent performance has left investors uneasy. Will it drop or climb? Frankly, we don't know, and neither does anyone else. Here are two things we do know: First, attractive investments are still available. Second, Edward Jones is committed to helping you work toward meeting your long-term financial goals regardless of current market conditions. If you have questions or concerns about your investments, call your financial advisor. He or she can help put today's market in perspective and keep you focused on your long-term goals.

Money coming due?

If you have fixed-income investments maturing soon, this is an ideal time to examine your overall investment strategy to determine if your investments are still properly positioned to meet your short-term needs and long-term objectives. Your financial advisor can help by conducting a portfolio review and suggesting reinvestment options to support your goals.
